PERCENTAGE OF TOTAL PHYSICIANS ■ Under 40 ■ 40 to 60 ■ Over 60

## Patient Care Hours Worked, 2015

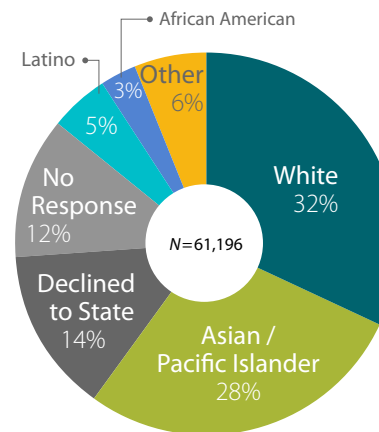

## Medical School Location, by Specialty, 2015

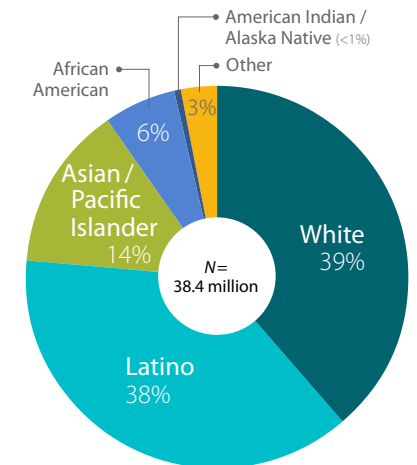

## Race/Ethnicity, 2015

### ACTIVE PATIENT CARE PHYSICIANS

### CALIFORNIA POPULATION

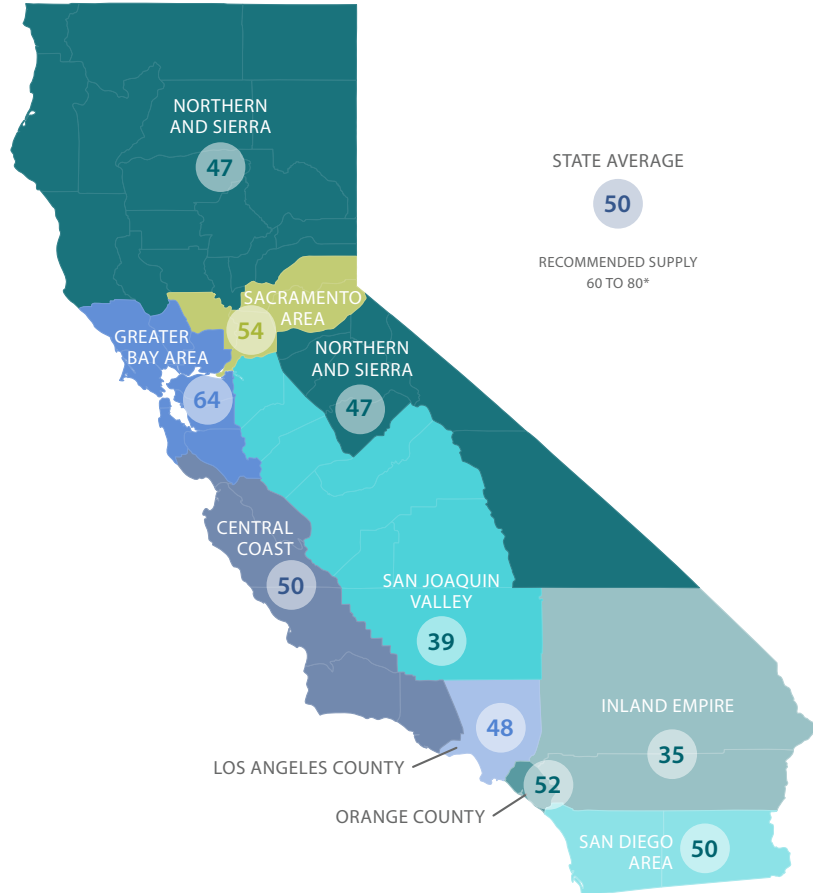

Notes: *Active patient care MDs* are active physicians who provide 20 or more hours in patient care per week and excludes residents, fellows, MDs practicing out of state and those that did not complete the survey. *Other* includes American Indian, Native American, Alaskan Native, Native Hawaiian, those of two or more races, and those of unknown race/ethnicity. Pie segments may not total 100% due to rounding.

# California Physicians, CONTINUED

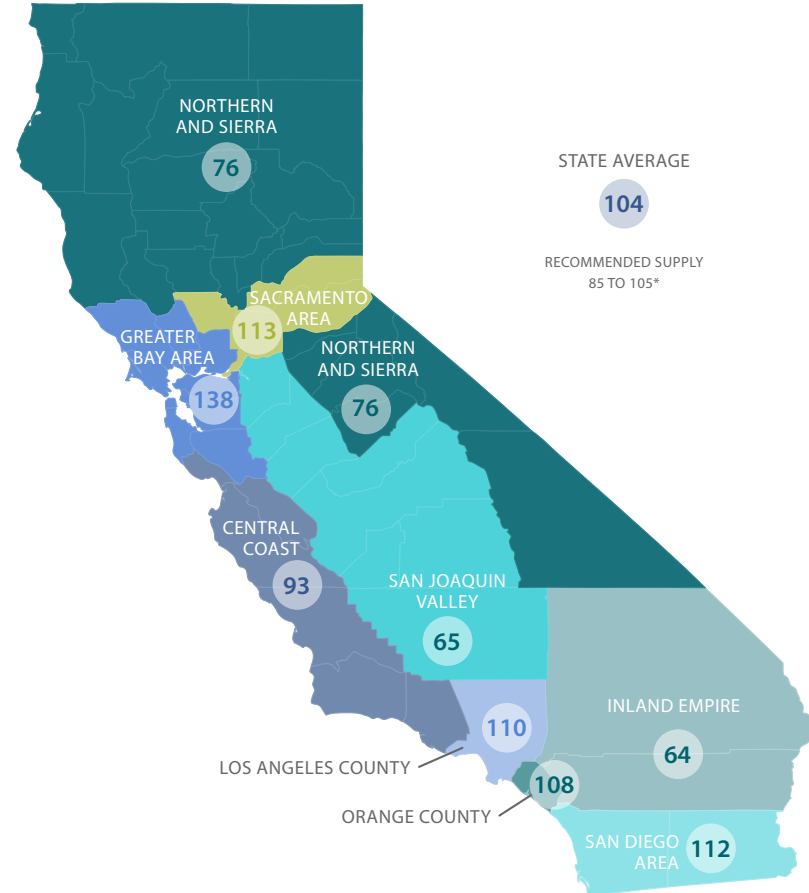

## Primary Care Physicians, by Region, 2015

NUMBER PER 100,000 POPULATION

## Specialists, by Region, 2015

NUMBER PER 100,000 POPULATION

\*The Council on Graduate Medical Education (COGME), part of the US Department of Health and Human Services, studies physician workforce trends and needs. COGME ratios include doctors of osteopathic medicine (DOs) and are shown as ranges in the chart above.

Notes: Data include active MDs working 20 or more hours in patient care per week, excluding residents and fellows. There is a slight difference in regional per population estimates of physicians since not all respondents provided geographic information.
