LIKELIHOOD OF WORKERS BEING UNINSURED³

CALIFORNIA WORKERS ARE MORE LIKELY TO BE UNINSURED THAN US WORKERS AS A WHOLE.

LIKELIHOOD OF BEING UNINSURED BY FAMILY INCOME

¹ Data reflect uninsured workers, ages 18-64.

² Data reflect uninsured children, under age of 18.

³ Data reflect the working population, ages 18-64.

Notes: Unless otherwise noted, all numbers reflect the population under age 65. Details may not add to the totals because individuals may receive coverage from more than one source. Sources: Employee Benefit Research Institute estimates of the Current Population Survey, 1988-2013 March Supplements.
