

BEFORE AND AFTER THE ACA

Where Will Californians Get Insurance?

2013

34.5M UNDER 65

2019

35.8M UNDER 65

DEFINITIONS: Other public coverage includes Veterans Affairs, Tricare, military, and Healthy Families. Individual market without subsidies is the estimated number of people buying coverage in the individual market (either outside or inside Covered California) with no premium tax credits. Covered California includes coverage with subsidies and catastrophic coverage. Covered California catastrophic coverage is available to those under 30 or those who meet financial hardship requirements. Covered California options are available January 1, 2014.

NOTES: Estimates include a 0.7% average annual population increase based on census projections.
