To slow the growth of health spending and improve the coordination and quality of care, providers and payers are working together to change how care is delivered and paid for.

**KEY**
- Goal
- Strategy
- Primary Route
- Alternate Route

**GETTING TO THE PEAK OF HEALTH**

**PROVIDERS ARE USING MANY ROUTES TO GET TO THE TOP**

**Reducing Total Cost of Care**
- Building ACOs (HMO-based, PPO-based)
- Reducing unnecessary admissions (hospitals and social services)

**Population Health Management**
- Consolidating services – hospital clinical affiliation
- Developing region-wide, integrated systems of care

**Access and Convenience**
- Launching new primary care models
- Setting up freestanding ambulatory facilities

**Continuity of Care**
- Collaborating between acute care and post-acute care
- Establishing retail clinics
