Making Information Available on Outpatient Surgery in California

Maribeth Shannon

July 29, 2015

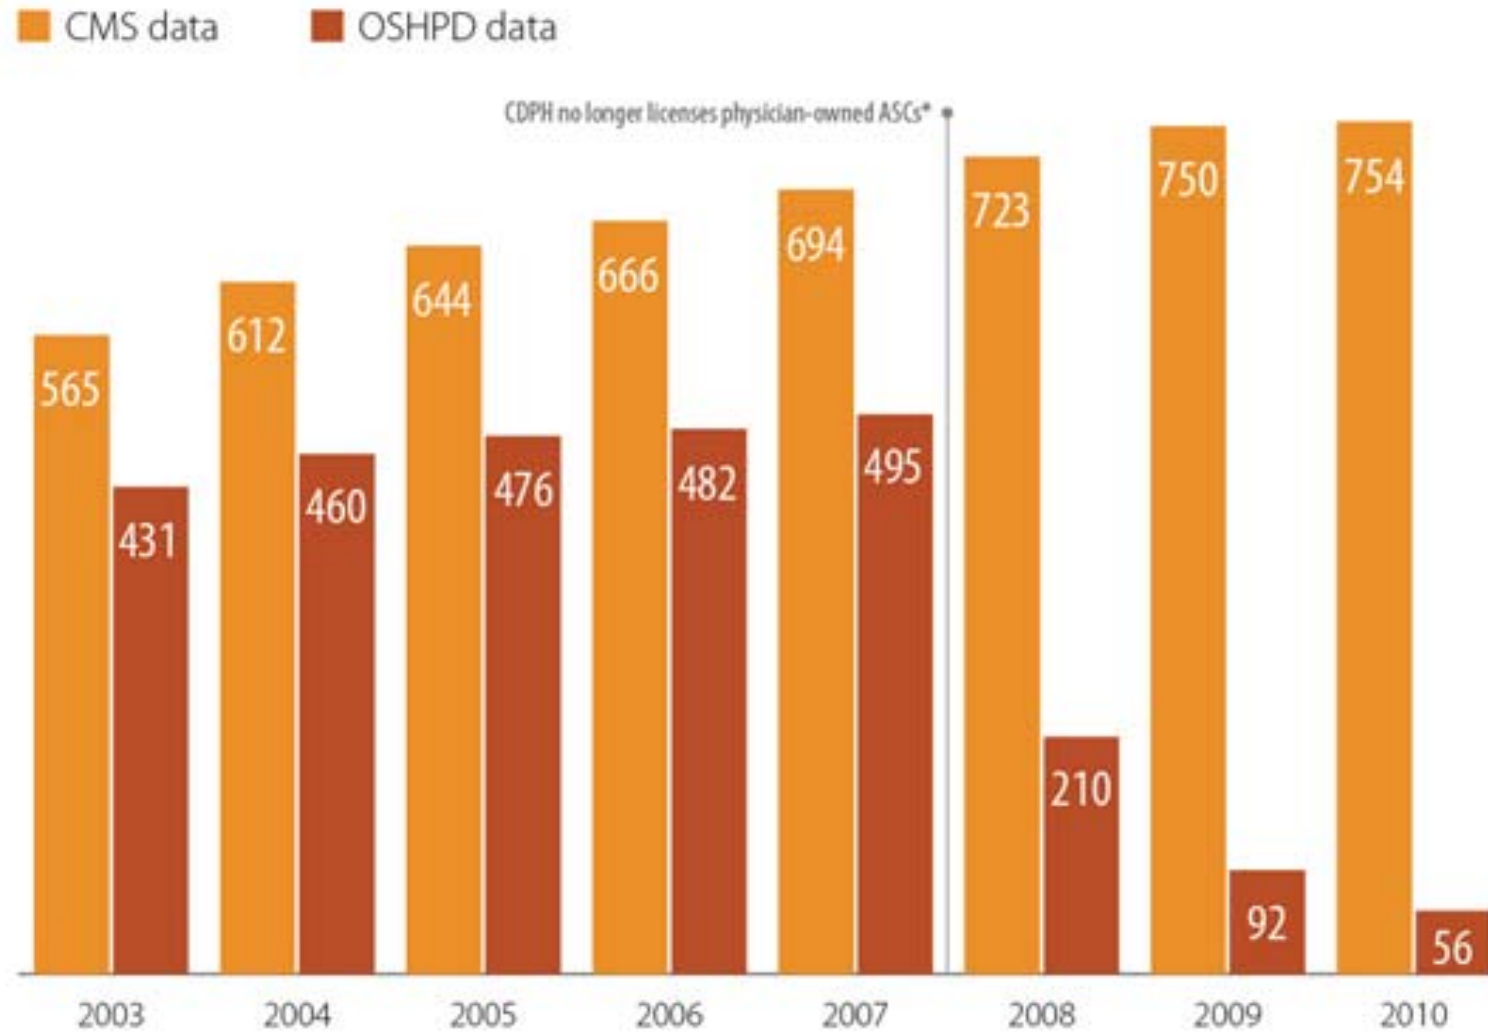

Setting of Care by Type of Surgery

Source: Agency for Healthcare Research and Quality (AHRQ), Center for Delivery, Organization, and Markets, Healthcare Cost and Utilization Project (HCUP), State Ambulatory Surgery and Services Databases (SASD) and State Inpatient Databases (SID), 2012, from 28 states.

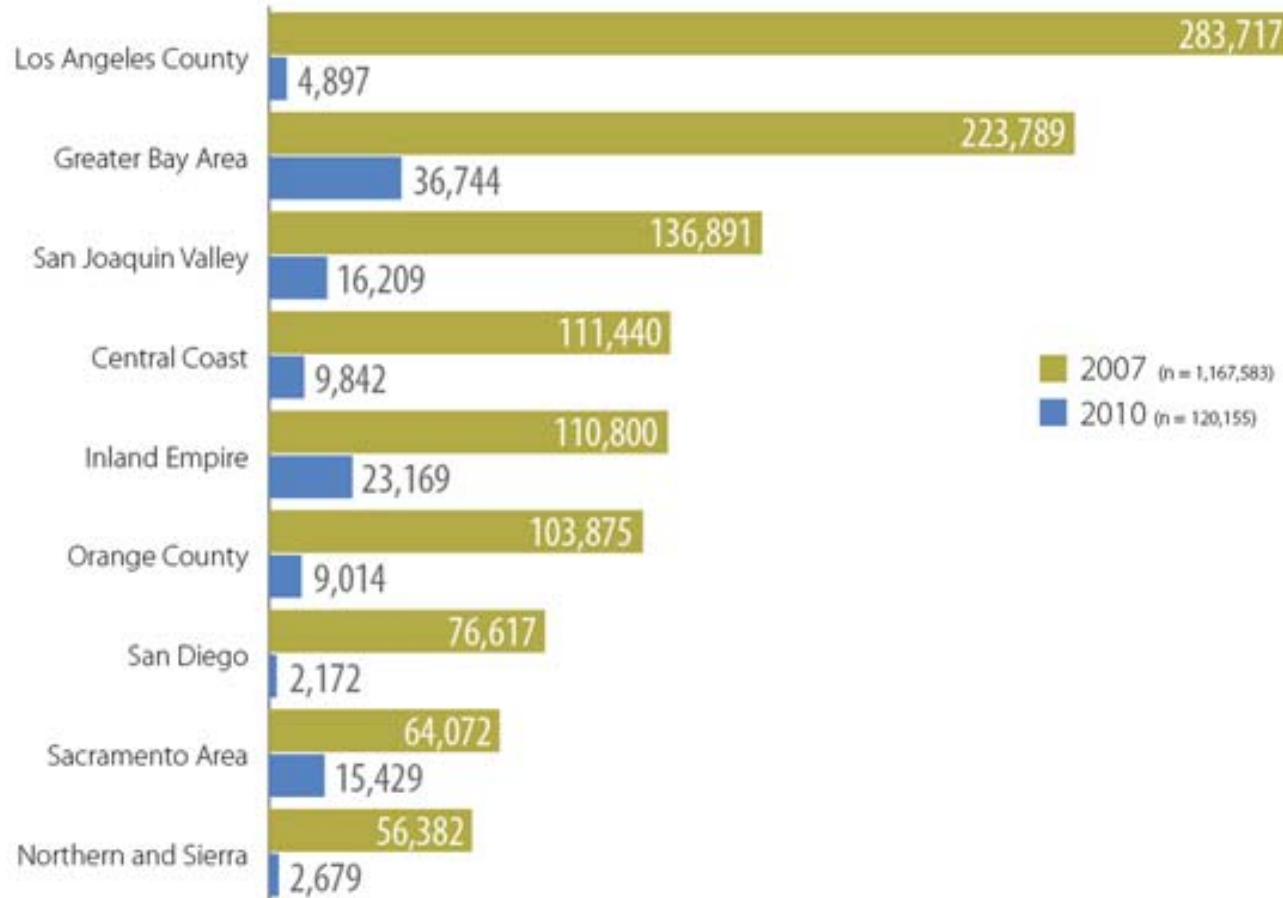

Freestanding ASC Facilities, by Data Source

California, 2003 to 2010

Reported Surgeries in Freestanding ASCs, by Region

California, 2007 and 2010

Notes: Represents facilities reporting data and operating in current year. The September 2007 *Copen v. Shewry* decision was interpreted to mean that ASCs with physician owners come under the oversight of the Medical Board of California, not the California Department of Public Health (CDPH), thereby removing any requirement for these ASCs to report data to the Office of Statewide Health Planning and Development (OSHPD). See Appendix for a list of counties within each region.

Source: OSHPD, Specialty Care Clinics Annual Utilization Data, 2007 and 2010.

Which Is Which?

Fremont Surgery Center

vs.

Surgery Center Fremont

The Medical Board of California
