

Speaking Their Mind: Californians' Perceptions of Health Care Survey Data Tables

**Prepared by
Lake Research Partners**

**For the
California HealthCare Foundation**

March 2012

Methodology

The survey was conducted May 6 through May 23, 2011 among a representative sample of 1,528 adults 18 and older in California, using Knowledge Networks. The survey included 505 adults in households below 138% of the Federal Poverty Level (FPL), 511 adults 138% to 400% FPL, and 512 adults 400%+ FPL. The margin of sampling error for the total results is ± 2.5 percentage points.
