

# California's Uninsured

A supplement to CHCF's *California's Uninsured: Progress Toward Universal Coverage*, available at [www.chcf.org](http://www.chcf.org).

California Health Care Foundation

National Comparison	CA	US
Uninsured (number, in millions)	2.9	27.5
Adults (ages 18 to 64)	2.4	23.5
Children (up to age 18)	0.5	3.9

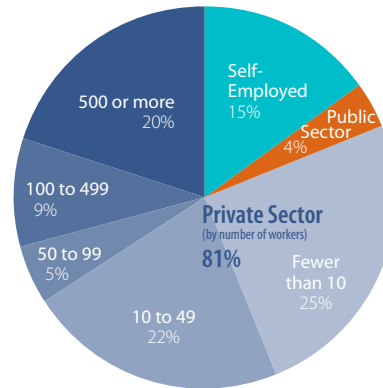

Sources of Coverage*	CA	US
Uninsured	8.7%	10.2%
Employer-based	56.8%	60.9%
Public Programs <sup>†</sup>	30.9%	26.8%
Individual	15.2%	14.0%

Household Work Status	CA	US
Workers Without Insurance <sup>‡</sup>	9.3%	11.2%
Uninsured Children Whose Head of Household:		
Worked Full-time, Full Year	61.6%	71.2%
Did Not Work	19.8%	14.5%

\*May receive coverage from more than one source (sum >100%).  
<sup>†</sup>Medi-Cal, Medicare, and Tricare/CHAMPVA.  
<sup>‡</sup>Worked at any time during 2016.

## WHO ARE THE UNINSURED?

### EMPLOYER SIZE AND TYPE<sup>§</sup>

<sup>§</sup>Data based upon 1.7 million uninsured workers. Other pie charts below reflect both workers and nonworkers (2.9 million).

## State Rankings of Uninsured (most to least), 2016

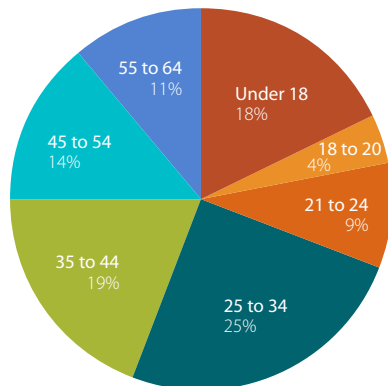

1 Texas	17.2%
2 Alaska	15.6%
3 Florida	14.6%
4 Arizona	14.1%
5 Mississippi	13.9%
6 Georgia	13.8%
<b>28 California</b>	<b>8.7%</b>
51 Pennsylvania	5.7%

## Reference Points, 2016

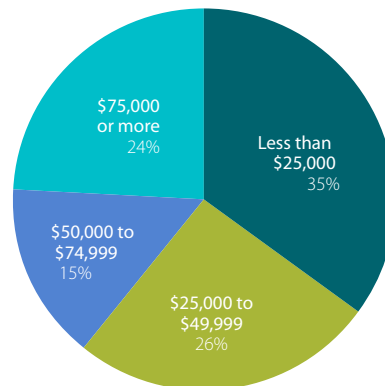

Nonelderly Population (in millions)	33.7
Unemployment Rate**	5.5%

\*\*Reflects annual averages, not seasonally adjusted, State of California Employment Development Department.

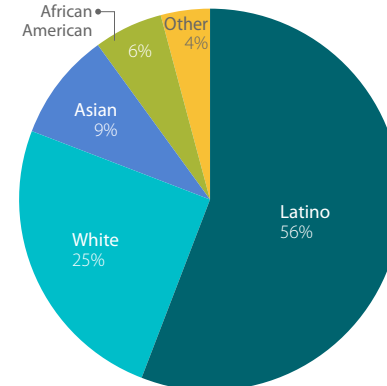

### AGE GROUP

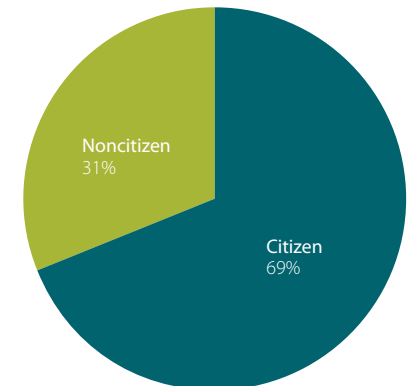

### FAMILY INCOME

### RACE/ETHNICITY

### CITIZENSHIP

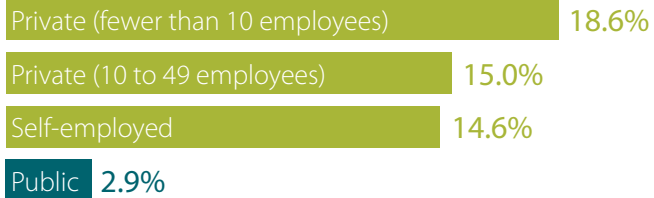

Notes: See full report for additional data notes. All figures reflect nonelderly, 2016 data unless otherwise noted. Uninsured are those without health insurance for the entire year. Uninsured rates are tracked by various sources including CPS, ACS, and CHIS. Due to differences in survey methodology, sources may publish different rates. The survey data used in this publication rely on self-reported insurance status. When asked by survey researchers about health coverage, some undocumented immigrants who have restricted-scope Medi-Cal may respond that they have Medi-Cal coverage. Restricted-scope Medi-Cal, which covers only emergency and pregnancy-related services, is not comprehensive coverage. If these undocumented adults reporting Medi-Cal were instead considered uninsured, the number of Californians without insurance would be higher. Pie chart segments may not total to 100% due to rounding.
