

California Physicians

A supplement to California Health Care Foundation's *California Physicians: A Portrait of Practice*.

Physician Supply, 2020

Licensed MDs 152,123

Active Patient Care MDs 75,468

MDs PER 100K POPULATION

Primary Care Physicians 60

Specialists 131

Average Annual Income, Selected Specialties, 2019

PRIMARY CARE PHYSICIANS

Family and General Practitioners. \$188,801

Internists, General \$197,335

Pediatricians, General. \$185,969

SPECIALISTS

Anesthesiologists N/A

Obstetricians/Gynecologists \$219,826

Psychiatrists. \$220,011

Surgeons \$230,384

Notes: Does not include self-employed or government-employed physicians. Does not include ancillary income from sources such as directorships or call coverage. The Bureau of Labor Statistics did not report an estimate of average income for anesthesiologists in California in 2019.

Age of Physicians, Select States vs. US, 2018

PERCENTAGE OF TOTAL PHYSICIANS

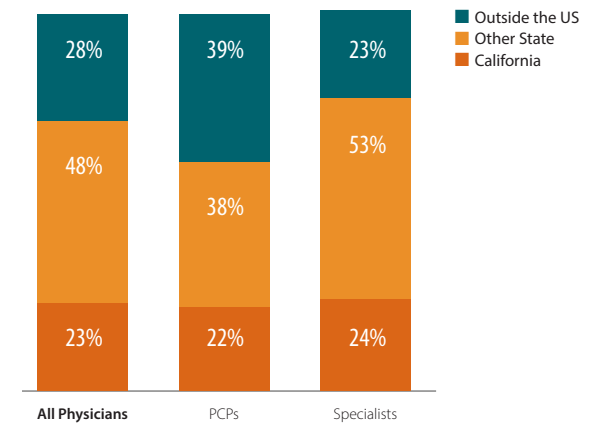

Notes: Data include MDs who renewed their license between February 2018 and January 2020, had a California address, and exclude residents, fellows, and nonrespondents (i.e., those MDs who did not respond to the Medical Board of California survey). *Active patient care MDs* are active physicians who provide 20 or more hours of patient care per week and excludes residents, fellows, MDs practicing out of state, and those that did not complete the survey. Segments may not total 100% due to rounding.

Patient Care Hours Worked, 2020

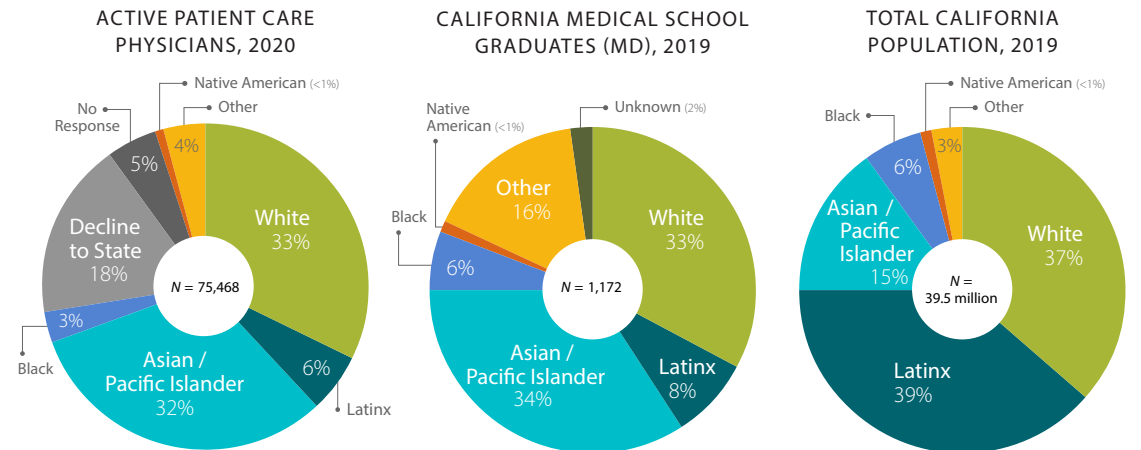

Medical School Location, by Specialty, 2020

Notes: Active patient care physicians. Data do not include those who did not answer the questions about specialty. Medical school location could not be determined for 58 physicians.

Race/Ethnicity, 2019 and 2020

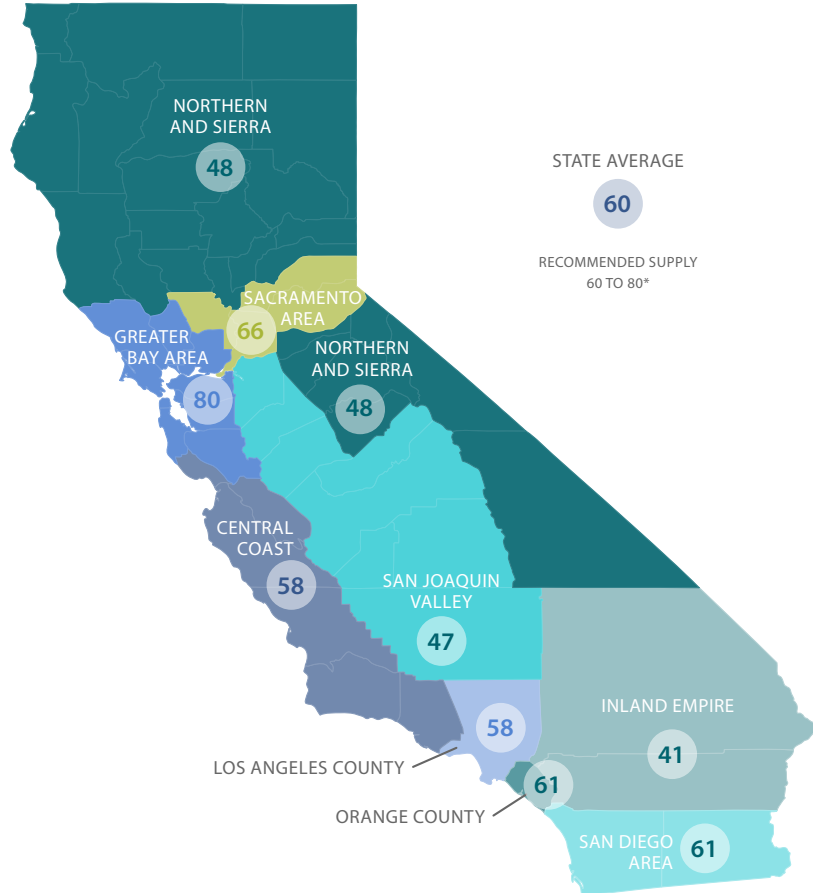

Notes: *Other* includes those of two or more races, and those of unknown race/ethnicity. The Association of American Medical Colleges uses *American Indian and Alaska Native, Black or African American, and Hispanic, Latino, or of Spanish Origin*. The Census Bureau uses *Black or African American, American Indian and Alaska Native, and Hispanic*.

California Physicians, CONTINUED

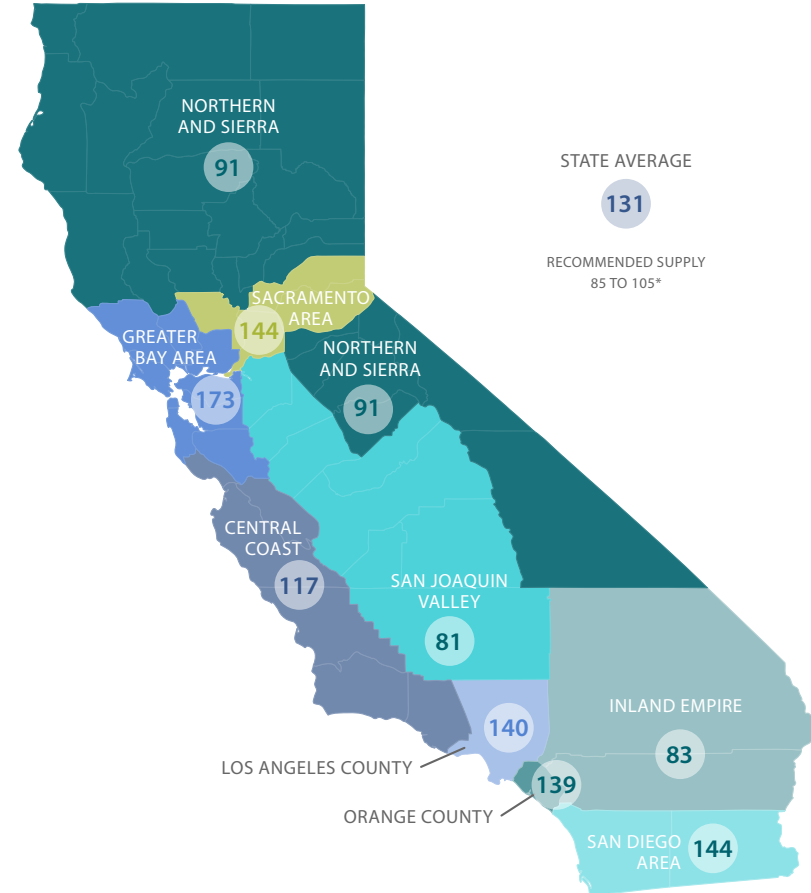

Primary Care Physicians, by Region, 2020

NUMBER PER 100,000 POPULATION

Specialists, by Region, 2020

NUMBER PER 100,000 POPULATION

*The Council on Graduate Medical Education (COGME), part of the US Department of Health and Human Services, studies physician workforce trends and needs. COGME ratios include doctors of osteopathic medicine (DOs).
 Notes: Data include MDs who renewed their license between February 2018 and January 2020, answered the question on the Medical Board of California (MBC) survey regarding their specialty, had a California address, and provided patient care at least 20 hours per week, and exclude residents, fellows, and nonrespondents (i.e., those MDs who did not respond to the MBC survey or did not answer questions about specialty). Of the 75,468 active patient care physicians in California, 163 (0.2%) did not report their specialty or board certification. There were 19 physicians who did not provide geographic information.
