Summary of Medicaid State Plan Amendments for Community Health Workers

The chart below summarizes state plan amendments (SPAs) that incorporate community health workers (CHWs) into state Medicaid programs. While other SPAs incorporate CHWs into Medicaid through targeted pathways for specified populations such as health homes and targeted care management, the following SPAs authorize CHWs to serve a broad Medicaid population.

| CALIFORNIA (approved: July 26, 2022; effective: July 1, 2022) | Preventive services 42 CFR 440.130(c) and 42 CFR 447 | The SPA defines CHW services as “preventive health services to prevent disease, disability, and other health conditions or their progression; to prolong life; and to promote physical and mental health and efficiency.” Under the SPA, CHW services related to preventive health include these:  
- **Health education**, consistent with established or recognized health care standards, to promote health or to address barriers to care.  
- **Health navigation** to assist enrollees to “access health care, understand the health care system, or engage in their own care; connect to community resources to promote a beneficiary’s health, address health care barriers or address health-related social needs.”  
- **Screening and assessment** to identify the need for services.  
- Individual support or advocacy.  
“Violence prevention services include all CHW services listed above.” | “CHWs must have lived experience that aligns with and provides a connection between the CHW and the community being served.” CHWs can qualify to provide preventive services through one of the following pathways:  
- **Certificate of completion of a curriculum** — that includes field experience — and attests to demonstrated skills/practical training in:  
  - Communication  
  - Interpersonal and relationship building  
  - Service coordination and navigation  
  - Capacity building  
  - Advocacy  
  - Education and facilitation  
  - Individual and community assessment  
  - Professional skills and conduct  
  - Outreach  
  - Evaluation and research  
  - Basic knowledge of public health principles and social determinants of health  
- **Demonstrated work experience** of at least 2,000 hours as a CHW in paid or volunteer positions within the previous three years and demonstrated skills and practical training as a CHW (in the areas specified above in the certificate pathway).  
- CHWs qualifying through the work experience pathway must earn a certification of completion of a curriculum within 18 months of the first CHW visit to a Medi-Cal enrollee. The CHW may provide services without a certificate for no more than 18 months.  
- **Violence prevention training.** “For individuals providing CHW violence prevention services only, a Violence Prevention Professional Certification issued by Health Alliance for Violence Intervention or a certificate of completion in gang intervention training from the Urban Peace Institute.”  
“Six hours of continuing education annually is required.  
“For dates of service on or after July 1, 2022, reimbursement rates shall be the lowest of the following:  
- The amount billed,  
- The charge to the general public, or  
- 80% of the lowest maximum allowance established no earlier than July 1, 2022, by the federal Medicare program for the same or similar service.” |

| Medical or other remedial care provided by licensed practitioners 42 CFR 440.60 | The SPA states “reimbursement is available for medically necessary services provided by a CHW within the scope of the applicable certification program” and within the scope of practice of the supervising licensed practitioner (e.g., health services provider in psychology, advanced practice nurse, physician assistant, podiatrist, or chiropractor). “[Supervision of the certified CHW is included in the scope of practice for each supervising licensed practitioner.”][12] | The CHW must be employed by the billing provider, and the billing provider must maintain documentation of the certification for the individual providing the CHW services. Indiana Medicaid recognizes certification from specified entities. | According to additional guidance, the supervising licensed practitioner can bill for the CHW services at 50% of the resource-based relative value scale for the following current procedural terminology (CPT) codes related to health education:  
- 98960  
- 98961  
- 98962  
Services must be provided face-to-face with the member, individually or in a group, in an outpatient, home, clinic, or other community setting. Services are limited to 4 units (or 2 hours) per member, per day or 24 units (or 12 hours) per member, per month.  
**Budget impact when submitted:**  
- FFY 2018: $5  
- FFY 2019: $20 |

**Covered services** include:
- Diagnosis-related patient education  
- Facilitation of cultural brokering between a member and the member’s health care team  
- Health promotion education  
- Direct preventive services or services aimed at slowing the progression of chronic diseases

**Noncovered services** include “insurance enrollment and ‘navigator’ assistance; case management/care coordination; arranging transportation or providing transportation for a member to and from services; and direct patient care outside the level of certification an individual has attained.”[14]
### LOUISIANA (approved: May 23, 2022; effective: January 1, 2022)

| Medical or other remedial care provided by licensed practitioners | The SPA authorizes services provided to Medicaid enrollees by a qualified CHW. “In order to receive CHW services, a beneficiary must have:  
- Diagnosis of one or more chronic health conditions including behavioral health;  
- Suspected or documented unmet health-related social need; or  
- Pregnancy.” | A qualified CHW is an individual who:  
- “Completed a state-recognized training curricula approved by the Louisiana CHW Workforce Coalition; or  
- Has 3,000 hours of documented work experiences as a CHW.” | Medicaid will reimburse for CHW services provided to qualified enrollees by qualified CHWs.  
Budget impact when submitted:  
- FFY 2022: $85,292  
- FFY 2023: $162,129 |
| 42 CFR 440.60 |  |  | |

**Covered services** include:  
- **Health promotion and coaching** including assessment and screening for health-related social needs, goal-setting / action planning, on-site observation of enrollees’ living situations, and providing information/coaching in an individual or group setting.  
- **Care planning** with an enrollee’s care team.  
- **Health system navigation and resource coordination** including helping to engage, re-engage, or ensure follow-up in primary care / routine preventive care, adherence to treatment plans and self-management of chronic conditions.  

**Coverage limitations** on CHW services include:  
- Up to 2 hours per day and 10 hours per month per enrollee.  
- Services are covered “incident to” the supervising physician, advance practice registered nurse (APRN), or physician assistant (PA).  
- Services must be ordered by a physician, APRN, or PA with an established clinical relationship with the enrollee.  
- Services must be rendered under the general supervision of a physician, APRN, or PA.  
- There are no site restrictions on where services may be delivered.  
- Two-way video and audio transmission is permissible.  
- Group services may not exceed eight unique enrollees at once.  

**Noncovered services** include insurance enrollment and navigator assistance; case management/care coordination; directly providing transportation for an enrollee to and from services; and direct patient care outside the level of training a person has attained.
While Minnesota statute states that the “Medical Assistance (MA) program covers care coordination and patient education services provided by a CHW if the CHW has received a certificate from the Minnesota State Colleges and Universities System approved community health worker curriculum,” currently, the only billable services provided by a CHW are diagnosis-related patient education services under the supervision of a physician, dentist, APRN, certified public health nurse, mental health professional, or registered nurse working for an enrolled organization.25

Coverage requirements include:
- Supervising provider “must order the patient education service(s) and must order that a CHW provides the service(s).
- Service involves teaching the patient how to self-manage his or her health or oral health effectively in conjunction with the health care team.
- Provided face-to-face with the member (individually or in a group) in an outpatient, home, clinic or other community setting.
- Patient education plan or training program is consistent with established or recognized health or dental health care standards.”26

Noncovered services include social services such as enrollment assistance or case management.

Documentation requirements include:
- Member’s record:
  - An order for service, specifying the number of units ordered, whether group or individual services, and signed by an authorized provider from an enrolled organization.
  - “The patient education plan or training program used by the CHW.”
  - “Periodic assessment of the member’s progress and need for ongoing CHW services.”27
- Documentation of:
  - “Date of service.”
  - Start and end time for the service.
  - Whether the service was group or individual and if group, number of patients present, summary of the session’s content, and the CHW’s signature and printed name.”28

For services to qualify for reimbursement, CHWs must:
- Have a valid certificate from the Minnesota State Colleges and Universities documenting completion of an approved CHW curriculum.
- Inform the Minnesota Department of Human Services of their affiliation with an approved supervising provider type by completing a required screening and enrollment process initially and once within every five years to maintain their enrollment.
- Have a National Provider Identifier (NPI) or Unique Minnesota Provider Identifier.
- Enrolled CHWs are considered a non-pay-to provider but must be listed on the claim as the person who rendered the CHW services.

An eligible billing provider must submit claims for the rendering CHW’s services under the following CPT codes related to self-management education and training, face-to-face:
- 98960, 1 patient
- 98961, 2–4 patients
- 98962, 5–8 patients
- For groups with more than 8 patients, use 98962 with the U9 modifier

Reimbursement limitations include:
- Providers may bill in 30-minute units
- No more than 4 units per 24 hours
- No more than 24 units per member per calendar month

Eligible billing providers include:
- APRN
- Clinic
- Community health clinic
- Critical access hospital
- Dentist
- Family planning agency
- Federally Qualified Health Center (FQHC)
- Hospital
- Indian Health Service facility
- Mental health professional
- Physician
- Public health nurse clinic
- Rural health clinic
- Tribal health facility

Preventive services

The SPA defines CHW services as “a preventive health service to prevent disease, disability and other health conditions or their progression; to prolong life; and/or to promote physical and mental health and efficiency.”

Covered CHW services, within the CHW scope of practice, include:

- **Health promotion and coaching** including assessment and screening for health-related social needs; setting goals / action planning; providing information/coaching.

- **Health education and training**, using established training materials, to prevent disease, disability, and other health conditions or their progression; to prolong life; and/or to promote physical and mental health and efficiency.

- **Health system navigation and resource coordination services** include ensuring patient-led follow-up in care, medication and treatment plan adherence, and self-management of chronic conditions by assisting to access covered services and other relevant community resources.

- **Care planning** with interdisciplinary care team.

“Services must be recommended by a licensed practitioner of the healing arts within their scope of practice under State law.”

Qualified CHWs include those:

- Certified by the RI Certification Board as a CHW
- Having a plan for obtaining certification within 18 months

**RI Certification Board requirements** include:

- “Completion of six months or 1,000 hours of paid or volunteer experience within the last five years;
- Completion of 50 hours of supervised work;
- Completion of 70 hours of education; and
- Submission of a portfolio, which is a collection of personal and professional activities and achievements.”

According to the SPA, bases of payment for CHW services will be 15-minute units of services for new individual patients, established individual patients, and groups of two or more.

Rates will be increased by the New England Consumer Price Index annually.

“Rates are inclusive of travel time and outreach to new CHW patient.”

Services may be billed for direct contact, face-to-face of telehealth, or collateral services (services delivered on behalf of an enrollee and not directly to or in the enrollee’s presence, but the enrollee remains the focus of the service).

**Budget impact when submitted:**

- FFY 2021: $687,488
- FFY 2022: $2,648,317

Summary of Medicaid State Plan Amendments for Community Health Workers

www.chcf.org
SOUTH DAKOTA, CONTINUED

Documentation.
- Type of service performed and whether it was group vs. individual
- Summary of services including objectives in care plan the service is related to
- Recipient receiving services
- Number of group members, if applicable
- Date, location, and beginning and end time of service
- “Name of individual providing the service”
- “CHW signature.”

Provider enrollment /requirements. “CHW agency is required to be enrolled with SD Medicaid to be reimbursed for CHW services.” “SD Medicaid does not enroll individual CHWs.”

- CHWs must be employed and supervised by an enrolled CHW agency.
- CHW agencies must complete a supplemental provider agreement addendum and submit their written policies and procedures, which must include:
  - Process to certify the trainee completed the appropriate training
  - Monitoring of six hours annually of training thereafter
  - Staff orientation (before entering a client’s home unsupervised) and annual training
  - Fingerprint-based background check
  - Regular checks of the Office of Inspector General’s List of Excluded Individuals/Entities and the General Services Administration’s System for Award Management lists for excluded people
About the Author
Erika Saleski, MPP provides consulting services to state and local governments, and organizations focused on improving health outcomes in low-income communities. Erika is an accomplished public policy professional with more than 15-years of experience in federal, state and local healthcare policy. Erika offers expertise and a proven track record in project management, Medicaid managed care contracting, public policy research and analysis, and federal policy negotiation.

About the Foundation
The California Health Care Foundation is dedicated to advancing meaningful, measurable improvements in the way the health care delivery system provides care to the people of California, particularly those with low incomes and those whose needs are not well served by the status quo. We work to ensure that people have access to the care they need, when they need it, at a price they can afford.

CHCF informs policymakers and industry leaders, invests in ideas and innovations, and connects with changemakers to create a more responsive, patient-centered health care system.
